39	Mar 27, 1986	Male	Single

Height (cm)	Weight (kg)	Nationality	Religion
160	60	Filipino	Christianity - Catholic

Work Experience
I have been working for 16.76 years

Sep 2024 - PRESENT
(1 Year, 4 Months)

Software Engineer
Sharpsuite Corporate Solutions
Cargo / Freight Services / Logistics
Level 19, 10 Eagle Street, Brisbane City QLD 4000

Freight Services Web Application
Developed a **full-stack freight services web application** using the following technologies and architectural patterns:
Validation and error handling with user-friendly messages
API integration for third-party freight carriers
Custom modals, dialogs, and notifications (Snackbars)
Dynamic form controls and responsive grids using MudBlazor
CRUD operations for customers, shipments, quotes, and carriers
Key Features:
Integration & Data Handling:
Efficiently handled JSON-based data communication between the frontend and backend. Implemented data serialization and deserialization for seamless API integration and external carrier API consumption.
Database:
Used **MySQL** with a **Code-First Approach** to model and manage the database schema directly from C# entity classes, supporting easier migrations and versioning.
Backend:
Developed a robust **ASP.NET Core Web API** backend using the **Repository Design Pattern** and **Entity Framework Core** to ensure a clean separation of concerns, maintainable code, and scalability.
Frontend:
Built with **ASP.NET Blazor Web App** leveraging **MudBlazor** UI components for a modern and responsive user interface. Implemented custom **HTML** and **CSS** styling for fine-tuned layout and design customization beyond standard components.

Feb 2023 - Jul 2024 *(1 Year, 5 Months)*	**Software Engineer** Tritontek Steel Fabrication Cebu City

1. Develop Module Part of HRIS(Job Portal) - For Online Employee Recruitment. Frontend using Blazor(Mudblazor), ASP. Net Core Web API for Backend.
2. Develop a Third Party Desktop Application for Software Integration for Tekla Structures mainly used for both US Clients. Using C# Application tool with Entity Framework, OOP Structured ORM repository, LINQ, Lambda and it uses Tekla Open API and MySQL Database.

Both Projects are in Agile and Waterfall Methodologies using Sprint.

Feb 2014 - Jan 2023 *(8 Years, 11 Months)*	**Software Developer** SkyGo Marketing Corporation Automobile / Vehicle Cebu Light Lapu-Lapu City, Cebu 6015

1. Develop, Enhanced and Maintain Online Job Exam for Employee Online Recruitment using PHP Codeigniter, Javascript, JQuery.
2. Develop and maintaining a comprehensive ERP system that integrates Sales, Inventory, and Accounting modules to support smooth business operations. This includes building and enhancing features using C#, ASP.NET, JavaScript, ExtJS, JSON, jQuery, and AJAX to deliver responsive and user-friendly functionality. You will also work extensively with MS SQL Server, designing optimized databases and writing complex stored procedures to ensure efficient data processing and retrieval. In addition, the position requires troubleshooting system issues, implementing enhancements, and ensuring overall system performance, security, and reliability. Collaboration with cross-functional teams is essential to translate business requirements into technical solutions and deliver continuous improvements to the ERP platform.
